

A few comments/evaluations  
from Kordell Norton presentation  
for NOHRC 2016

- He was a great speaker - high energy. He should have been the Opening Keynote!
- I wish his presentation hadn't been cut short by the sponsors speech at the beginning. He was extremely engaging and passionate about his topic. Wish we had time to hear his entire program.
- Would love him as an opening or lunch speaker.
- Great presentation. Would have liked more time.
- Very entertaining break out session. I was interested the entire program.
- fantastic presentation. incredibly entertaining and uplifting. Although the ability to take away a lot of content fell a little short, this presentation was a breath of fresh air. I think this is the type of speaker you would want for the key note (either breakfast or lunch)
- Great personality. His presentation was like an infomercial.
- EXCELLENT Presentation!
